

IMMERSIVE PATIENT SIMULATION TRAINING

The Theoretical Basis of Simulation

DATE: TUESDAY, MAY 14, 2019

TIME: 9:00AM – 4:00PM

LOCATION: CLINICAL SIMULATION CENTER
OF LAS VEGAS

COST TO ATTEND: \$600 PER PERSON
(INCLUDES LUNCH & TRAINING MATERIALS)

Please join us for an Inter-professional workshop on the theoretical basis for simulation. In this workshop participants who want to develop HFS programs or for a specific course will be introduced to the rationale behind simulation based learning. The International Nursing Association of Clinical Simulation and Learning Standards of Best Practice are introduced. Through knowledge presented in this workshop simulation educators will begin to learn the evidence base in developing an HFS scenario. When this first workshop is completed learners can attend the Facilitation and Debrief Workshops. The end goal for participants is to implement evidence based practice in simulation education.

****Must Attend this Workshop Before Attending the Debriefing, Facilitator, and Advancing the Debrief Workshops****

Learning Objectives:

Theoretical Basis for Simulation:

Participants will be able to:

- 1) Compare and contrast different perspectives on learning
- 2) Explain Kolb's Theory of Experiential Learning
- 3) Apply the International Nursing Association of Clinical Simulation and Learning Standards of Best Practice in Simulation.
- 4) Apply these concepts to an HFS exercise
